

The youth organization of the EU Environmental Committee has to submit students' opinions on 'The car-free city' to the Committee. The organization contacted the environmental group in your school, too. As member of this group you also decided to write your opinion.

Write a **for and against composition** of between **120-150** words. Discuss **ALL** the points below in a minimum of 2 clauses or short sentences considering the advantages and disadvantages. Support the arguments with examples and your own experience.

- effects on the environment
- needs of shops and businesses
- public transport
- parking

Count and then write the number of words here:

*The car-free city*
